## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-9, drawn to a circuit and system comprising a select circuit with an encoder and multiplexer for configuring the register cells to select only one of the select lines to be a part of a conductive path, classified in class 713, subclass 400.
  - II. Claims 10-17, 18-22, drawn to a circuit for configuring the register circuits based on a result from a logic circuit to align the plurality of output bits by the output nodes, classified in class 713, subclass 400.
  - III. Claims 23-30, drawn to a method for configuring the registers based on the actual number of bit time intervals of misalignment wherein a plurality of training bits includes a pattern of bits, classified in class 713, subclass 400.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I-III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention III has separate utility such as using the expected pattern of bits to detect misalignment, whereas inventions I-II do not require the received bits to be in a specific pattern. Additionally, invention I differs from inventions II-III in that an encoder and a multiplexer are required. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required are different for each group of inventions, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
